 ruslan.e.valikhanov@gmail.com

Responsible Product Designer generalist specialised in **Rapid Prototyping, UX Strategy and User Research**. I have led and delivered multiple **full-cycle design projects** while mentoring junior designers.

experience

Lead Product Designer

Nov 2022 → Jan 2025

Offerista GmbH, Berlin, Germany

Partner for digital commercial marketing, the Offerista Group reaches up to 39.5 million consumers each month and helps over-the-counter retailers receive more in-store visits through digital communication of services.

- Developed and implemented a comprehensive **UX strategies** for B2B & B2C initiatives, aligned with our business strategy, creating **roadmaps** and high-impact design solutions for stakeholders, engineers and international cross-functional teams, while reporting directly to the **Head of Product Development**
- Delivered over **10 complex cross-team projects**, balancing competing priorities and ensuring timely, high-quality outcomes in MarTech ecosystem
- Conducted **20+ competitor analysis, quantitative & qualitative user research and testing initiatives**, uncovering actionable insights to optimize product design and user experience
- **Led and mentored a team of designers**, managing UX roadmap development & prioritization, design direction, and task allocation to ensure alignment with organizational goals and company growth
- Pushed the transition from isolated feature thinking to holistic, system-wide design approaches and championed **design culture** within a team of product managers
- Problem solving, critical thinking, and innovation through **user-centered design** and iterative testing were central to my approach

Product Designer

Apr 2017 → May 2021

AMBOSS GmbH, Berlin, Germany

Company provides the smarter way to learn and practice medicine with help of their digital products.

- In collaboration with 5 different teams **redesigned the whole software** - being responsible for **user experience, micro-interactions, polished user interfaces**, while utilizing design thinking and advocating for our users
- With confidence pushed **4 big & complex projects**: **custom study plans**, sign-up flow, search functionality and analytics – from sketch to implementation with help of collaboration tools
- With our market understanding, I've modified our **seasonal campaigns** from our portfolio, such as **self-assessment report** and others
- Created and maintained an **unique aesthetic style** of **illustrations, iconography and analytics**
- **Mentored 2 designers**, establishing clarity in their focus areas for growth
- Successfully accomplished 3 projects for **iOS and Android mobile applications** and mobile devices
- Maintained our design system, with a strong focus on **usability, accessibility & consistency**

Freelance Designer & Illustrator

Sep 2013 → Apr 2017

Freelance in Berlin, Germany and Moscow, Russia

- Designed and shipped **graphic materials and infographics** for 2 agencies and different companies such as: **Lode, DermaPlus, and MAXIM**

- Created more than 30 different **illustrations** (**1, 2, 3**) and **data visualisations** for magazine layouts

- Started my own design agency, delivered several monthly **digital magazines**

education
